INSPECT BEFORE YOU SIGN!

Please forward this information to proper department / people so they are aware of what to do when shipment arrives.....

We wish to advise you that these ladders/pike poles will be shipped from the factory in Wisconsin. Because of the size, ladders/pike poles are shipped in either bundles or crates and are not solid walled packages. Damages can occur on the inside of packaging, due to improper handling (fork lift use) by some carriers. Please **BE AWARE** upon arrival that there may be possible damage even if the packaging is in good condition.

INSPECT ALL ITEMS in your shipment BEFORE YOU SIGN the truck driver's delivery receipt. Packaging should be partially/fully opened to view all sides of contents. If truck driver refuses full inspection within reason (he can not be detained for hours while you raise/use item), **DO NOT SIGN** delivery receipt; ask to speak with the local freight terminal manager, and/or **REFUSE SHIPMENT COMPLETELY**. ♦♦ If contents are in good condition, sign and date driver's delivery receipt. ♦♦ If contents/packaging is damaged, **WRITE** on the delivery receipt "Damaged" and as much detail(s) of actual damage; sign and date; and/or refuse complete shipment. The driver should give you a copy of the delivery receipt for your records.

NOTE: For further assistance contact Duo-Safety Ladder immediately toll free 877-386-5377 before driver leaves. If shipment is damaged and the delivery receipt has been signed clear without notation of damage, any possible rights to full payment on a freight claim may be void.

The factory will not and can not pay for freight company damages.

INSPECT BEFORE YOU SIGN!
