**General fire hazards**  
**Specific Methods**

Water fog. Foam. Dry chemical powder. Carbon dioxide (CO<sub>2</sub>).  
Do not use water jet as an extinguisher, as this will spread the fire.  
During fire, gases hazardous to health may be formed.  
  
Self-contained breathing apparatus and full protective clothing must be worn in case of fire.  
Move containers from fire area if you can do it without risk.  
No unusual fire or explosion hazards noted.  
Use standard firefighting procedures and consider the hazards of other involved materials.

### Section 6 - Accidental release measures

**Methods and materials for containment and cleaning up**

Isolate area. Keep unnecessary personnel away. Use personal protection as recommended in Section 8 of the SDS.  
  
This product is miscible in water.  
SMALL SPILLS Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.  
LARGE SPILLS: Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. After removal flush contaminated area thoroughly with water.  
Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

**Environmental precautions**

Avoid discharge into drains, water courses or onto the ground.

### Section 7 - Handling and storage

Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

### Section 8 - Exposure control/personal protection

**Occupational exposure limits**  
**Biological limit values**  
**Appropriate engineering controls**

No exposure limits noted for ingredient(s).  
No biological exposure limits noted for the ingredient(s).  
Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

**Individual protection measures, such as personal protective equipment**

**Eye/face protection**

Wear safety glasses with side shields (or goggles).

**Skin protection**

**Hand protection**

Not required for casual contact. For prolonged contact, latex, nitrile or neoprene gloves are recommended.

**Other**

If conditions risk exposure, wear suitable protective clothing.

**Respiratory protection**

In case of insufficient ventilation, wear suitable respiratory equipment. No personal respiratory protective equipment normally required.

**Thermal hazards**

Wear appropriate thermal protective clothing, when necessary.

**General hygiene considerations**

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
